ALVIS CAR CLUB BADGE COMPETITION

Members are hereby warned that voting on the designs now
displayed in the Clubrooms closed at the March General Meeting.
If you have not yet registered your vote, you are requested to do
do so before then.

Roy Henderson is eager to get the first two or three designs
finalised so that a final choice can be made, the design/s sent
to Alvis Ltd. for their approval and the badge makers consulted.

This all takes time and Roy wants to see the badge on people's
cars before the year is out.

To give some idea of the three leading designs on the voting
to date we give below a rough sketch :

The above sketches do not do justice to the coloured original
but they do give some idea of the leading designs.

JOTTINGS

John Cole, from Tyabb, formerly a 3 Litre man has gone 12/50.
He has just bought a 1927-8 12/50 and is patiently restoring
it. Meanwhile he is using the 3 Litre as a hack while he gets
the 12/50 going. When it is he hopes to pull the 3 litre
down, restore it, and virtually keep it in moth-balls. Hope
we haven't mucked up the reporting John.
